

To our valued customers,

As the situation with the novel coronavirus (COVID-19) continues to evolve and continues to have an impact on our communities, we wanted to take a moment to update you about the steps we have taken and continue to take to keep our customers and employees safe and healthy.

Like many others, we are monitoring the situation and are closely following the guidance of public health experts including the Centers for Disease Control and Prevention (CDC) and the World Health Organization (WHO).

In following this guidance, we have asked our employees to take precautionary measures including frequent thorough hand washing, social distancing, working from home, and discontinuing any non-essential travel. In an effort to ensure continuous supply during the COVID-19 situation, we have taken safety measures to alleviate any potential impacts to our supply chain. We have also increased the frequency and strength of our sanitation procedures in our warehouses and facilities. I want to reassure you that all our warehouses and factories are fully functional and we are happy to report that our employees are following our procedures and protocols diligently.

We know this is a big concern for everyone, and our hearts are with those currently affected by the virus and those that are in vulnerable areas. While we expect things to proceed as normal, we will continually monitor the situation and continue to take the necessary steps to keep our community healthy and informed. The health and safety of our customers and employees are and always will be of utmost importance to us.

We value you and appreciate your continued support of Ampak Inc.

Sincerely,

Salvatore Nicastro
President
